Explanation of State Revenues:

Explanation of Local Expenditures: It is unknown the number of students that might request a transfer to another school corporation due to the fact that they are closer to the receiving school than the school they currently attend. The number would probably be small. The sending school corporation would be liable for the transfer tuition cost of the receiving school. The transfer tuition cost would vary from school to school and would depend on the program the student was attending. Transfer tuition cost would probably range from \$6,000 to \$10,000 per student.
